

Dean van Zyl

Hello

Pretoria · deanvanzyl37@gmail.com · 071 375 6131

Summary

Third-year Bachelor of Computing student at Belgium Campus, passionate about machine learning and practical software that saves people time—most recently building a C# quoting tool for a local business.

Skills

- Languages: C#
- Frameworks: Windows Forms
- Tools: Git, Visual Studio

Projects

- Quote-Builder Automation (2024-11) — Developed a desktop application for <Business Name> that auto-generates customer quotes from a parts database, cutting preparation time by ~60 % and eliminating manual calculation errors.

Education

- BComp Computer Science - Belgium Campus iTversity (2023-2026)
- National Senior Certificate - Hoërskool Wonderboom (2018-2022)
